

**April 22, 2026**

**ATTENTION: GRAIN CUSTOMERS**

**To provide the highest level of service to our ag producers during planting season, grain elevator locations in Gibbon, Sleepy Eye-East, and Hector will be temporarily closed. This will allow our grain team to assist with agronomy operations.**

**Central United will continue to ship and receive grain from all other area locations during regular business hours, Monday through Friday.**

**Due to the unpredictability of spring weather conditions, it is unknown when this will conclude. An update will be posted on the website when full operations have resumed at all grain elevator locations.**

**Thank you for your patience and understanding—we appreciate your business. Have a safe and productive spring season.**

United by land. Driven by purpose.
